

Walker River Ind. Reserve
Aug, 7, 1871

Dear Sister,

The Ther. stands 98 degrees in this room and the flies are so bad I wish I had a whole Ballet Troupe to sing "Shoo Fly dont bodder me" The country is very dry, very hot and very dull. I have not made a cent in Borax but on the contrary have expended \$400, I still own however a 6 th sixth interest the the best Borax mine in the word and may realize by and by I have got...of.. yount colt... crese for...seems t...

On this River we have got about 25 old Batches that cook for themselves. It would be a great blessing to the country if 25 Old maids would immigrate here.

We are in the habit of calling each boys up to 40 years of age but I think the havit a bd one for it makes us forget our true status.

Please give my best wishes to all.

Yours Truly Frank
